- What's the purpose for using it?
- How do my experiences, my expertise, and my beliefs as a teacher connect to the work?
- How will my team and I engage in the work?
- What resources might we need to be successful? (human & material)
- What will we accomplish through this work?
- What outcomes/results do we expect to see?
- What will be the “proof” that the answers to our first question is true?
